

- Equipment / Functions.....: EL. POWER:
Cable size : Main power 1- P-001 4 G 120 mm²
Rec. Backup fuse :
400-480 V: 300 A “slow” fuse (D-characteristic, outlet for motorstarter, circuit-breaker)
660-690 V: 180 A “slow” fuse (D-characteristic, outlet for motorstarter, circuit-breaker)
- Pressure gauge on the inlet.
 - Gate valve on outlet
 - Pressure gauge before and after Gate valve on outlet
 - Valve for venting the pump housing.
 - Valve for frost protection in pump.
 - Monitoring phase sequence.
 - Level guard
