Unit no. N2V-01A

IKM Testing AS

NITROGEN EMERGENCY SHUT-DOWN VALVE - PANEL

Dimensions

Length(mm).....: 1200 Width(mm).....: 800 Height(mm).....:
Weight (kg).....: 60
Lifting/ Transportation.....: Alu. box. Transport on pallet
Certificate(s) / Serial No:.....: 10043-001

Area of use / certification

Standard.....: ATEX Zone1

Type

Item type.....: Remote Emergency Shut Off Valves - IKM NTS AS

Flow / Pressure / Volume

Max Inlet pressure (bar).....: 69

Connections

Air connection.....: 1 ea. Offshore claw coupling, max 10 bar
Connection Fluid.....: ACME NI 150

Content

Content.....: 1 ea panel q/w 4 emergency shut-down
4 ea valves on/off
4 ea 15mtr air hoses from valeve to panel - oil petrol G 5600
1 ea earth cable
1 ea air regulator, set pressure max 8.3 bar

Additional information

Equipment / Functions.....: - Used for emergency shut-down of LN2 from LN2 tanks.
- Air hoses between valve and panel is anti-static
