

DYSE ROTERENDE

Dimensions

Nozzle Length (mm).....: 140
Diameter Ø (mm).....: 95

Type

Fabricator.....: StoneAge
Model.....: Badger 6" BA-PA
Suitable for.....: 6" - 12" pipes

Technical Specifications

Work pressure (bar).....: 1500
Work pressure (psi).....: 21750
Minimum flow (ltr/min).....: 50
Maximum flow (ltr/min).....: 170
Nozzle head type.....: Rotating/Spin
Number of Nozzle Ports.....: 5
Nozzle pattern.....: Port Size: 1/4 NPT (DSI 14)
End couplings/fittings.....: M24 Male

Additional information

Equipment / Functions.....: - Nozzle weight: 3,6 kg
- Rotation Speed: 50–300 rpm (Adjustable)
- The 6" Badger is a compact self-rotary nozzle with adjustable speed control capable of navigating 90 degree elbows in pipes as small as 6 in. (152 mm) in diameter.

FEATURES:

- Different jetting configurations allow for more or less pull and forward hitting power
- Navigates elbows down to 6 in. (152 mm)
- Speed controlled rotary tools provide complete internal cleaning coverage and optimum jet delivery
- Maximize cleaning by choosing slower speeds for hard to clean or plugged pipes and faster speeds for polishing easy to clean pipes with a single tool
- Optimize the tool for a variety of pumps pressures and flows with multiple jetting options

Suitcase contains, sentralizer, overhaul kit, spare nozzles, and tools for changing nozzles and adjust speed control
