IKM Testing AS

Unit No. PC-02

PIGGE CONTAINER

Dimensions

Length(mm).....:	4255	Width(mm).....:	2450	Height(mm)....:	2735
Weight - Tara (kg).....:	8000	Weight - Payload (kg)	5000	Weight - Gross (kg)	13000
Lifting/ Transportation.:	14' Container with forklift channels and lifting slings. DNV 2.7-1				
Certificate(s) / Serial No:	74872 / SW14-021				

Construction year

Built.....: 2008
Upgraded/rebuilt.....: 2020

Area of use / certification

Onshore/offshore.....: Offshore
Standard.....: Norsok Z-015
Over Pressure (Yes/No)..: Yes

Type

Item type.....: Pigging container q/w chemical injection systems
Container Type.....: Pigging container

Content

Content.....: - Computer with touch screen mounted on the outside of the container. (DISCONNECTED AND NOT IN USE, 2020)
- Chemical flow indicator and pressure indicator on all injection lines
- 3 ea. separate chemical injection pumps
- External chemical tanks
- Flow line 2" and 4" Equipped with temperature transmitter, flow indicator, pressure transmitter and psv.
- Emergency shower.

Connections

Inlet connection.....: Flow line: 2" 2500# RTJ and 4" 300# RF
Chemical injection: 3ea 1" Camlock Male
Air: 1" Claw coupling
Fresh water: 1" Claw coupling
Outlet connection.....: Flow line: 2" 2500# RTJ and 4" 300# RF
Chemical injection: 3 ea. 9/16" Autoclave M/P Female
Drain line: 2" 150# RF

Power supply

Fuse (qty).....:	1	Fuse (A).....:	16
El.Power1.....:	230 V	(Hz).....:	50

Additional information

Equipment / Functions...: This is a complete chemical and logging unit for pigging/flushing

Frame has NOT arrangement for bolting sea fastening brackets
