

DRILL HOLDER / BASE - VACUUM

Dimensions

Length(mm).....: 280
Equipment Weight - (kg).....: 5

Width(mm).....: 95

Height(mm).....: 260

Type

Description.....: Air operated vacuum base with cylinder feed drilling unit.
Fabricator.....: Vac-Force
Model.....: VF 2000
Serial no.....: 10787

Additional information

Equipment / Functions.....: - Air operated vacuum base with cylinder feed drilling unit.
- Adheres to most materials: concrete, fibreglass, stainless steel, brass, copper, aluminum, plywood, composite board, masonry, sheet metal, marble, granite.
- Can be used underwater and in spark free environments (if pneumatic drill is used).
- Drill up to 32MM (1-1/4") holes in 25MM (1") steel plate (with annular cutter).
- Great for overhead work or confined areas
- Lightweight, only 4.5 KG for the basic unit.
- Will adhere to surfaces with some surface imperfections (1/8" or smaller).
