

NITROGEN TANK 6 BAR

Dimensions

Length(mm).....: 4180 Width(mm).....: 2420 Height(mm).....: 2670
Weight - Tara (kg).....: 5120 Weight - Payload (kg).....: 6180 Weight - Gross (kg).....: 11300
Lifting/ Transportation.....: Frame with forklift channels and lifting slings are certified in acc. to DNV 2.7.1.
Certificate(s) / Serial No:.....: 972152 (Serial no. frame: NT-01)

Construction year

Built.....: 1997

Area of use / certification

Onshore/offshore.....: Offshore

Flow / Pressure / Volume

Tank Volume (ltr).....: 8070
P-max (bar).....: 6
P-max Transport (bar).....: 2
Vaporization.....: Approx. 0,6% of total volume/day

Connections

Inlet connection.....: ACME NI 150
Outlet connection.....: ACME NI 150

Filter

Inlet Filter house.....: Washable strainer
