Unit no. NT-51

IKM Testing AS

NITROGEN TANK 17,2 BAR

Dimensions

Length(mm).....	6058	Width(mm).....	2438	Height(mm).....	2591
Weight - Tara (kg).....	8000	Weight - Payload (kg).....	28000	Weight - Gross (kg).....	36000

Lifting/ Transportation.....: Frame with ISO corners
ADR RID - PT2
IMDG - 10
IMO T75

Certificate(s) / Serial No:.....: 1270 (Serial no. frame: NT-51)

Construction year

Built.....: 2007

Area of use / certification

Onshore/offshore.....: Onshore

Flow / Pressure / Volume

Tank Volume (ltr).....: 20566
P-max (bar).....: 17,2

Connections

Inlet connection.....: ACME NI 150 Female
Outlet connection.....: ACME NI 150 Female

Additional information

Equipment / Functions.....: TANK SHALL NOT BE FILLED MORE THAN 95% (19538 ltr)
