

DOSE RATE METER

Dimensions

Lifting/ Transportation.....: Delivered in Pelicase

Type

Item type.....: Dose Rate Meter (Alpha-Beta-Gamma Probe)
Fabricator.....: Automess
Model.....: 6150AD6 / 6150AD17
Serial no.....: 1106270/176060

Power supply

Battery.....: Use standard 9 V battery. Operating time approx. 1000 hours

Content

Content.....: - Automess 6150AD6
- Automess 6150AD17
- Cable to probe
- Spare battery

Additional information

Equipment / Functions.....: User area 6150AD6 (106270)
For photon radiation (gamma- and X-radiation), with analogue and digital display, automatic range switching, non-volatile dose memory, individually programmable dose and dose rate alarm levels, indication of relative standard deviation.
- Analogue range : 0.1 $\mu\text{Sv/h}$ - 10 mSv/h
- Digital range : 0.01 $\mu\text{Sv/h}$ - 9.99 mSv/h
- Energy range : 60 keV - 1.3 MeV

User area 6150AD17 (105364)
Wipe test probe, power supply from 6150AD.
- Analogue range : 0.1 s⁻¹ - 10k s⁻¹
- Digital range : 0.01 s⁻¹ - 9.99k s⁻¹
