

# **SWEENEY KASSETT 2**

## **Dimensions**

Width(mm)...... 32 Height(mm)...... 128

# Type

Fabricator...... Hydratight (Sweeney)

Qty. available in stock...... 2

## Flow / Pressure / Volume

P-max (PSI)..... 10000

### **Connections**

Inlet connection...... Twin hose

# Additional information

Equipment / Functions...... Dimensions (LxWxH) are for complete tool (Power Head and Square drive)

## Safe

· Innovative design that completely encloses all moving parts and eliminates pinch points

- 30 35 degrees of operating stroke provides added productivity while avoiding "tool lock on" which is common with some torque wrench designs Versatile
- · Interchangeable head design
- Power head / square drive combination for flexible use with standard impact quality sockets
- Power head / hex head combination for limited height in line solutions
- · Wide range of hex sizes available for all applications
- 360 degree movement of reaction arm with simple dial lock for rapid change
- · For use topside and subsea

#### Compact

- · Designed to give optimum strength to weight and torque to weight ratios
- · Minimum nose radius for trouble-free tool fit
