

- Equipment / Functions.....: - The water consumption at full effect is 20% higher than the steam production.
- Heating coil for frost protection
- Fire protection : Swordsman foam system
- Fire, gascentral : CEAG GHG 6645/AK4-1 (Ser. Nr: JB10 1119/D/M)
- Ignition source connection :
- Gas alarm (Detector mounted near air inlet).
 - Fire alarm.
 - Emergency shut-down on the inside and on outside of the container.
 - Emergency shut-down from CCR.
- Other safety functions :
- Fire guard.
 - Flow guard boiler feed water
 - Low level switch diesel tank
 - High level switch diesel tank
 - Fault signal gas detector
 - Steam thermostat
 - Pressure guard
 - Safety switch pressure
