

LINE BORING MACHINE

Dimensions

Length(mm).....	1330	Width(mm).....	800	Height(mm).....	580
Equipment Weight - (kg).....	201				
Lifting/ Transportation.....	Shipped in 2 containers				

Area of use / certification

Onshore/offshore.....: Offshore

Type

Item type.....	Electrical driven line boring machine
Fabricator.....	Climax
Model.....	BB5000
Serial no.....	13222

Flow / Pressure / Volume

Minimum bar length (mm).....	1219.2
Max bar length (mm).....	7315.2
Minimum drill hole Ø (mm).....	38.1
Max drill hole Ø (mm).....	304.8

Power supply

Power (Electrical/Hydraulic).....: Electrical

Additional information

Equipment / Functions.....: Machine: L 1334mm x W 800mm x H 580mm
Bar: L 1892mm x W 165mm x H 178mm

Optional tool head for boring diameter up to 609,6mm has to be ordered at accessories.

Power supply : Electric 230V 16A
Mounting Options: Single Arm, Double Arm, Universal, ID
Rotational Drive Unit 4:1 gear ratio reduction

Machine can be used for line boring, drilling, facing, conventional boring and grooving.

Quick and Easy Setup

- Modular components make setup quick and easy.
- Fast and easy setup using high quality cast-iron set-up cones and spherical bearing mounts.
- Patented spherical bearing mounting system allows quick setup, with up to 5° of bearing misalignment.
- Typical set-up time for an experienced operator is 30 minutes or less.
