

PIPE CUTTING MACHINE

Type

Description.....: Portable pipe cutting and weld preparation machine
Fabricator.....: Clyde
Serial no.....: 9067
Mounting (ID / OD).....: External (OD)

Flow / Pressure / Volume

Range of use - Minimum (\emptyset mm).....: 914.4
Range of use - Max recom.(\emptyset mm): 1066.8

Connections

Air supply (P@Q).....: PNEUMATIC 1.5 HP. 90 p.s.i. - 48 cfm

Power supply

Hydraulic Supply.....: 100 bar - 30 litres/min

Additional information

Equipment / Functions.....: - One machine can cut and bevel simultaneously.
- Pipe materials: Carbon steel, stainless, duplex, ductile iron, kunifer.
- Wrap around clamps for thin wall pipe.
- Star wheel feed systems offers low clearance and simple to operate
