

PRESSURE RELIEF VALVE

Type

Fabricator..... DK-LOK
Model..... V64
Serial no..... 15606-166
Medium..... Fluid,Gas
Dimension (inch)..... 1.00

Technical information

Min. PSV set pressure (psi)..... 15
Max. PSV set pressure (psi)..... 5500

Connections

Inlet connection..... 1" NPT Male
Outlet connection..... 1" NPT Female

Additional information

Equipment / Functions..... The V64 Series PED Certified Relief Valves have a wide variety of media applications including air, gases, CNG, and liquid relief applications providing both a repetitive and reliable bubble-tight seal.
